FEMA

Course: *E0291 Community Dam Safety, Preparedness & Mitigation*

Course Dates:

February 29 – March 3, 2016

Travel Dates:

February 28 and March 4, 2016

Course Length:

This course is 4 days in length.

Location:

Emergency Management Institute (EMI)
National Emergency Training Center (NETC)
Emmitsburg, Maryland

Course Description:

Dam safety is not just the responsibility of the owner and operator of the dam. The best way to reduce, mitigate or eliminate the risks of flooding resulting from normal dam operations and dam failure is for the entire community to work together to reduce the effects of a potential dam failure by increasing preparedness, reducing potential consequences, improving communications and land use planning.

This course will teach dam owners, emergency service providers, emergency planners & managers, land use and transportation planners, community leaders and other members of the community to work together through upfront planning to reduce the risks and mitigate the consequences resulting from a dam failure, and recover more effectively in the event of a failure.

Course Goals:

Upon completion of this course, participants will understand how dam safety, preparedness and risk mitigation relates to:

- Understanding Risk
- Land Use Planning
- Dam Failure Consequences
- Risk Communication
- Preparedness and Emergency Planning
- Response/Recovery

Prerequisites:

None
